

# **COURSE OUTLINE**

## **Electrical Safety**

### **Course Details:**

This course covers the responsibilities of management, work health and safety officers, tradespersons and emergency response teams in the performance of rescue procedures from live Low Voltage (LV) Apparatus, not including overhead lines and underground cables in the work place as well as contribution to risk management processes at all operational levels.

The program consists of real life practical skills and knowledge to allow the participant to be assessed as competent in the performance of cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) guidelines as well as the technical skills to be able to confine small workplace emergencies.

### **Entry requirements:**

An individual undertaking this Electrical Safety course with Risk Management Training Solutions (RMTS) will need to demonstrate the following to be eligible for entry:

- Sufficient English language, literacy, numeracy and visual interpretation skills to successfully complete this course.
- Participants will need sufficient physical ability to squat, kneel, bend, lift and carry objects during the practical scenarios i.e. performing rescue of a person from a simulated scenario;
- It is a requirement of this course that a participant is physically capable of performing uninterrupted CPR for at least 2 minutes on a CPR adult manikin placed on the floor and on a CPR baby manikin placed on a firm surface.
- Personal safety equipment must be provided by the participant and worn during training e

If you have poor mobility or a current injury, please discuss this with us prior to booking.

### **Unique student identifier (USI):**

Any individual undertaking nationally recognised training will need a USI in order to receive their Qualification or Statement of Attainment. If you do not have a USI, you will not receive your Qualification or Statement of Attainment. A USI will give you access to an online record of any training you have completed since 1st January 2015. All individuals will be required to either apply for or provide a valid USI number on enrolment. Application for a USI number can be made directly through the USI website: <https://www.usi.gov.au/about> or via our website link.

If you require assistance in creating your own USI, please contact RMTS on 07- 5455 5451

### **Licensing, legislative, regulatory or certification considerations:**

The skills and knowledge described in this unit may require a licence/registration to practice in the work place subject to regulations for undertaking of electrical work.

Practice in workplace and during training is also subject to regulations directly related to Occupational Health and Safety, electricity/telecommunications/gas/ water industry safety and compliance, environmental protection, anti-discrimination and training.

Commonwealth, State/Territory or Local Government legislation and regulations may exist that limits the age of operating certain equipment.

ESI employees are required to maintain currency in this Unit for authorisation/approval to work on ESI Networks

Specific licensing /regulatory requirements relating to HLTAID001 - Provide cardiopulmonary resuscitation including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.

### Pathways into the course:

Participants may enter this course through a number of entry points, and must be able to demonstrate the potential to undertake vocational education and training at this course level, such as:

-  Participant direct enrolment
-  Employer enrolment (part of your role)
-  Requirement for entering the industry

### Pathways from the course:

Participants who complete the Electrical Safety Course may be eligible for entry into further study such as:

- HLT33115 Certificate III in Basic Health Care

Participants who are successful in gaining these units of competency may be eligible to undertake roles such as work place first aider, electrical safety roles.

### Course Delivery:

This course will be delivered in the workplace or at RMTS training facilities.

### Duration:

Full course: 1 day (8 hrs)

### Course Structure:

As part of this course the following unit competencies will be delivered:

- **HLTAID001 - Provide cardiopulmonary resuscitation**
- **UETDRRF06 - Perform rescue from a live LV panel**
- **PUAFER008 - Confine small emergencies in a facility**

\*\*Please note that the CPR & LV Panel component of the training is only valid for 12 months and should be updated annually

### Pre-requisites:

Unit of Competency	Pre-requisite Unit
UETDRRF06 Perform rescue from a live LV Panel	HLTAID001 Provide cardiopulmonary resuscitation

Further details of unit pre-requisite requirements will be provided at enrolment and on course commencement.

### Assessment requirements:

Individuals undertaking this course will be expected to complete both written and practical assessment tasks.

### Inclusions:

-  Practical hands-on training delivered by industry experienced trainers
-  Knowledge on relevant legislation and Australian Standards
-  Recommendations and advice for specialised PPE and equipment for your particular workplace
-  Advice on risk control methods for the type of work to be undertaken
-  Participants will be placed onto our register to receive a reminder when all Certificates are about to expire. This service is provided by RMTS to assist participants to stay current.

### **Recognition of Prior Learning (RPL):**

If you believe you already hold some or all of the skills, knowledge and/or experience for this course, you may be eligible to apply for Recognition of Prior Learning (RPL).

Unit: HLAID001 Provide cardiopulmonary resuscitation – due to industry requirements, competency for this unit cannot be demonstrated through the recognition process.

You are encouraged to refer to our Participant Handbook and RPL/CT Handbook which can be downloaded from our website and speak with RMTS prior to commencing training.

### **Course fees:**

The fee for this course is **\$390 per participant**

No Statement of Attainment will be issued until full and final payment has been received.

### **Payment methods:**

RMTS have eftpos facilities available, or payments can be made by direct deposit or cash. For larger organisations seeking training options, RMTS offer purchase orders.

### **Refund policy:**

- A full refund will apply where RMTS cancels the course prior to commencement.
- A full refund of the course fees paid will apply where the participant withdraws in writing 14 days or more prior to the course commencing.
- 75% refund of the full amount of course fees paid where the participant withdraws in writing less than 14 days but more than 7 days prior to the course commencing.
- 50% refund of the full amount of course fees paid where the participant withdraws in writing less than 7 days but more than 3 days prior to the course commencing.
- No refund where the participant withdraws less than 3 days prior to the course start date or after commencement of the course unless special circumstances apply. Evidence must be submitted e.g. Medical Certificate

A full copy of our refund policy can be downloaded from the website.

### **Course completion:**

On successful completion of all unit requirements, participants will be issued with nationally recognised Statement of Attainment for:

- **HLTAID001 – Provide cardiopulmonary resuscitation**
- **UETDRRF06B Perform rescue from a live LV panel**
- **PUAWER008B – Confine small workplace emergencies.**

Participants who do not complete all requirements of the course will be issued with a Statement of Attainment for the unit/s completed successfully.

### **How to apply:**

For more information, please do not hesitate to contact our office or visit our website.
